AU REVOIR.

With this issue of The Randall County News I lay down the business management and vacate the editorial chair of the paper to other and more experienced men. Mr. Chas. K. Neelham of Washington, Texas, takes charge of the plant, while Mr. L. B. Chrisman of Chicago, takes up the editorial work for the future. As the time for this separation approaches I more and more feel the keen regret that comes to me at the parting of those pleasant associations which it has been my pleasure to have since I have been wielding the editorial pen in this good town of Canyon City—associations which can never be replaced in any other place in the world, for my efforts to give the people of this city and county a good live local newspaper have been received with a feeling that would have inspired any person with a desire to do their best. I feel that the citizens of this town and county have been more than kind to me and the fact that I have disposed of my interests to other persons would make me feel like a traitor to those people were it not for the fact that I really believe that the new management and editorial staff will be more capable in representing the interests of the town and country than myself.

In yielding the editorship to Mr. Chrisman I do so knowing that he is thoroughly capable, that he is a good business man and one who would not spare time or trouble in giving to the people whom I have represented the very best paper of a local nature that is possible in this city and I earnestly bespeak for these people that kindly feeling and sentiment which you have so unanimously given unto me. It is not my purpose to leave this city but rather to engage in other business and I trust that I shall still be of benefit to the community which I have chosen as my home.

I cannot close this without a word of thanks for the good business which I have enjoyed in this office. It has shown to me that the people are appreciative of our efforts in their behalf and for this I thank you one and all.

I am not saying "good bye" to the friends made during my term as editor of this paper but rather to say the simple French words, "Au revoir."

R. A. TERRILL.

Wasn't that a great joke Tulia played on Canyon City—worked

the New State Normal off on her for \$100,000.00, and we can get the Presbyterian College, a better article, for about half that price. We call that good financing.—Tulia Standard.

Well maybe, but did 'Brer Callahan ever stop to think about how many times he has attended services and listened to a long-winded talk winding up with a strong plea for the financial support of a State Normal? And about how many times during the course of a year are collections taken for denominational schools? This editor believes in denominational schools. In fact they are a necessity and must be supported and this Presbyterian College, if located at Tulia would be a great benefit to the financial interests of the town but it appears to the editor that the desire of those people to buy this advantage for less than it is worth smacks strongly of the Jewish trade sentiment.

INTERURBAN CAUSEWAY.

The Daily Panhandle of Amarillo and the Hon. Richard Bowman, representative from this district, have been agitating the proposition of a causeway from Amarillo to Canyon City which appears to the editor of this paper to be an idea which should receive the commendation of the citizens of this town and county. According to the plans suggested, it is the intention to have a roadway sufficiently broad for the use of teams and automobiles and to have the roadway on a direct line from our sister city to Canyon City. This roadway to be graded and placed in such condition that it would be possible to travel over it even in the wettest weather and the deepest mud on the common roads, and it is also the intention to have the entire distance lined with trees on both sides of the road. As an inducement the Daily Panhandle is offering an attractive advertising proposition in this, that they will give a year's subscription to every person who will plant fifty trees along their property line during this tree-planting season. This is a good proposition whether the property owner secures the subscription to the daily paper or not, because every tree planted enhances the value of the owners property just that much, and then we need the direct road to Amarillo instead of having to go there in a round-about way. Let's have the causeway.

We still have on hand a few sample packages of "Caeti Salve" and "Alkali Colic Cure," which will be handed out, on application to members of the fraternity, only, who are afflicted with sore heads and belly-aches, on account of the location of the New State Normal at Canyon City. Its best medicine on earth, boys, for a chronic sorehead or acute cramp in the abdomen, and we can prove by a number of reliable East Texas editors, who have tested its healing virtues. Directions for taking go with each package, but should you desire the formula, please say so in your application. We furnish no application blanks—just any old form will answer—we'll understand.—Tulia Standard.

A few doses of the "Caeti Salve" and "Alkali Colic Cure," which Editor Callahan is distributing, is a sure cure if they are as strong as his recent editorial entitled "Ignorance or Egotism—Which?"—and the doses are free to the suffering public—after they have paid the subscription price for the paper.
